Class X

Board	Odisha
Medium	Oriya
Year of Passing	2018
Grade	58.5%

PROJECTS

ONLINE FOOD ORDERING & DELIVERY SYSTEM :-

I have completed a fully functional online food ordering and delivery system for a restaurant. The system includes features such as menu browsing, cart management, secure checkout, and delivery management. It also has an admin panel for managing orders, menu items, and customer details, ensuring a seamless experience for both users and restaurant staff.

GADGETS AND HOME APPLIANCE STORE'S ONLINE ORDERING AND DELIVERY :-

I'm working on a project for a GADGET AND HOME APPLIANCE STORE that focuses on streamlined ORDERING AND DELIVERY. The project includes a PRODUCT CATALOG with filters, a robust ORDERING SYSTEM with cart management and secure payment integration, and a DELIVERY MANAGEMENT system with real-time order tracking. The ADMIN PANEL allows for easy management of orders, products, and customers, along with detailed analytics. The platform is designed to be fully responsive, providing a seamless shopping experience across all devices.
